

## Digital Research Seminars\*

on Mondays, 16h15 - 17h00

Live Webinars via GoTo Meetings: calender invitations with detailed information will be sent shortly prior to every seminar

| Date   | Lecturer                            | Topic  | Working Group              | Moderator      |
|--|-------------------------------------|--|----------------------------|----------------|
| 15. Jun.   | Ms. Zhao Wang                       | "Allergic versus pseudo-allergic activation of human skin mast cells – similarities & differences"   | Zuberbier                  | Marcus         |
| 22. Jun.   | Dr. Sayedmohammad Hasheminasab      | "Clonal tumor evolution under induction chemotherapy and concurrent radiochemotherapy (RCHT) in patients with resectable non-small cell lung cancer (NSCLC)" | Ghoreschi                  | Marcus         |
| <b>Seminar Holidays 23 June 2020 - 9 August 2020</b> |                                     |  |                            |                |
| 10. Aug.   | Dr. Sherezade Monino Romero         | "Soluble FcεRI in allergic diseases (Mechanism of release and use as a biomarker)"   | Maurer/Metz/Magerl         | Marcus         |
| 17. Aug.   | Ms. Mary Sammons                    | "HIV Pre-Exposure Prophylaxis (PrEP) Knowledge, Attitudes & Counselling Practices amongst German Providers"  | Nast                       | Marcus         |
|  | Mr. Fabian Scherer                  | "Perioperative management of anticoagulants & antiplatelet drugs in patients undergoing cutaneous surgery"   |                            |                |
| 24. Aug.   | Prof. Dr. Zuberbier                 | "An overview of the research activities of GA <sup>2</sup> LEN and what it offers for our department"  | Zuberbier                  | Marcus         |
| 31. Aug.   | Ms. Theresa-Charlotte Brembach      | "A novel pathogenetic pathway and its components in Hidradenitis suppurativa" (no CME credits!)  | Wolk/Kokolakis/Sabat       | Marcus         |
| 7. Sep.  | Ms. Andria Constantinou             | "Evidence of hair follicle dysbiosis in patients with lichen planopilaris and frontal fibrosing alopecia." lecture is cancelled                              | Blume-Peytavi/Kottner/Vogt | Eberle/Martin? |
| 14. Sep.   | Ms. Yana Hackler                    | "The role of mast cells during viral skin infections"  | Maurer/Metz/Magerl         | Marcus         |
| 21. Sep.   | Dr. Diana Willmes                   | "Does the deficiency of prostaglandin E2 predispose to anaphylaxis?"   | Babina/Worm                | Martin         |
| 28. Sep.   | Ms. Anna Lena Klein                 | "Investigation of transfollicular penetration using microdialysis on ex vivo porcine ear skin"   | Lademann/Meinke            | Marcus         |
| 5. Okt.  | Ms. Andria Constantinou             | "Evidence of hair follicle dysbiosis in patients with lichen planopilaris and frontal fibrosing alopecia."   | Blume-Peytavi/Kottner/Vogt | Marcus         |
| 12. Okt.   | <b>Autumn holidays - no seminar</b> |  |                            |                |
| 19. Okt.   | <b>Autumn holidays - no seminar</b> |  |                            |                |

|  |                              |  |                    |
|--|------------------------------|--|--------------------|
| 26. Okt.   | Dr. Johannes Schleusener     | "Antisepsis of the skin"   | Lademann/Meinke    |
| 2. Nov.  | Dr. Farzan Solimani          | "Type 17 T follicular helper cells promote desmoglein 1/3-specific autoantibody production in pemphigus"                 | Ghoreschi          |
| 9. Nov.  | <i>no seminar</i>            |  |                    |
| 16. Nov.   | Ms. Jiaqi Zhu                | "Apoptosis regulation in cutaneous SCC cells by celecoxib"   | Eberle             |
|  | Ms. Uly Sumarni              | "Apoptosis regulation in cutaneous T-cell lymphoma cells by PEP005"  |                    |
| 23. Nov.   | Dr. rer. nat. Davender Redhu | "Role of PAR-2 in TSLP production"   | Babina/Worm        |
| 30. Nov.   | Ms. Zhao Wang                | "MRGPRX2 as codeine receptor of skin mast cells - internalization and desensitization via the $\beta$ -arrestin pathway" | Zuberbier          |
| 7. Dez.  | Dr. Ramin Rokhzan            | "High-Throughput measurements of cell contraction and endothelial barrier function"                                      | Ghoreschi          |
| 14. Dez.   | Ms. Yanyan Luo               | "An iPSC-MC platform for studying MC-driven disorders"   | Maurer/Metz/Magerl |
| <b>Seminar Holidays 15 December 2020 - 17 January 2021</b> |                              |  |                    |

*last update: 19.11.2020*

\*all seminars are free of charge & open to everyone (doctors, students etc.) / registration prior to the events is not required / all seminars are not sponsored

The program is available online [derma.charite.de/ueber\\_die\\_klinik/veranstaltungen/](http://derma.charite.de/ueber_die_klinik/veranstaltungen/)
